Odor Modules

A - P/N 36210A fits F112C (11200) 61200

B - P/N 36200A fits F113C (13000), 63200

The odor modules are provided to adsorb odors, gasses, vapors, and V.O.C's (volatile organic compounds) from the air that passes through the machine. These modules are capable of holding 25-50% of their weight in gasses, vapors, and voc's. When saturation occurs they tend to "desorb" and emit a strong pungent odor continuously.

A - P/N 36210A - Sugg. Retail \$84.00 - **AbsoAir Price \$55.00**

B - P/N 36200A - Sugg. Retail \$96.50 - **AbsoAir Price \$65.00**
